Tailwind • Bootstrap
- Database  
Engines  
MySQL •  
PostgreSQL •  
SQLite • MariaDB
- Python

- Github  
Actions • CI/CD
- Docker  
Docker File •  
Docker Compose
- AWS Amazon Web  
Services
- Jira  
Agile • Scrum
- VS Code

- Team Lead
- OOP Object  
Oriented  
Programming
- Design Patterns
- Solid
- System Analysis
- Bilingual  
Portuguese •  
English
- Driver's License

# Experience

---

## ECI EvolutionX • Team Manager & Software Developer

Nov 2024 • On going

As a Team Manager and Full-Stack Developer, I lead a high-performing development team of 4 developers, ensuring the successful delivery of complex projects while maintaining hands-on involvement in technical solutions. My role bridges team leadership, technical guidance, and project ownership, driving both people and product growth.

## ECI EvolutionX • Software Developer

Out 2022 • Nov 2024

As a Full-Stack Developer, I worked on expanding our platform's capabilities by integrating with multiple ERP systems, allowing us to read and synchronize external business data in real time while ensuring performance and scalability. I focused on building robust, reusable solutions that empowered our clients to manage complex processes directly through our platform.

## ENOVO • Full Stack Developer

July 2021 • Out 2022

Development and maintenance of Enovo main software, creating new features, fixing bugs and refactor existing code. Development of online shops integrating with APIs (example Stripe, Sage, Skynet). Creating designs for websites and providing client follow-up.

## ENOVO • Internship

March 2021 • July 2021

Design and development of a dynamic Help Center, frontend and backend with backoffice, allowing to control users' actions, personalize pages (articles), rates, recommendations and including a complex search.

---

# Education

---

# Escola Superior de Tecnologia e Gestão de Viseu

2018 • 2021

Bachelor's Degree in Software Engineering.
